11. Basis of Provision of Licensed Materials

11.1 You accept that:

(a) You should not rely solely upon the Licensed Materials when making any decision to deal with any person or entity Profiled and that before making any such decision you should make independent checks of such person or entity to verify the information contained in the Licensed Materials and their resulting suitability as a commercial counterparty.

(b) If the Licensed Materials contain negative allegations about any person or entity, it should be assumed that such allegations are denied by them;

(c) Information provided by us in the Licensed Materials is necessarily in summary form and should be read and used by you in context of the full details available in the Third Party Materials;

(d) The Licensed Materials cannot be an exhaustive database of persons or entities of whom you may wish or be obliged to make enquiries before entering into a financial or other relationship with them.

11.2 You acknowledge that:

(a) The inclusion or exclusion of any person or entity in or from the Licensed Materials should not automatically be taken to draw any particular inference (negative or otherwise) about them including as the result of the linking of any person or entity to any other person or entity identified in the Licensed Materials. The nature of linking varies considerably;

(b) Many persons are profiled in the Licensed Materials solely because they hold prominent political or other positions or are connected to such individuals;

(c) While every attempt is taken to ensure that the Licensed Materials are kept up to date, we cannot guarantee that information contained in them in relation to any person or entity will not have changed or be correct;

(d) We cannot guarantee that we will find any or all of the published information available in connection with any individual or entity;

(e) We make no warranty or representation about and disclaim all liability for the accuracy, completeness or currency of any Third Party Materials;

(f) The designation of a Low Quality Alias is made at our discretion and such designation may not correspond to your own assessment of its strength as a means of positive identification of the person or entity Profiled. You must satisfy yourself that such designation is appropriate and applicable to your level of risk appetite;

(g) PEP Sub-Classifications are made based on our assessment of the nature of the office held or the relationship to the office holder based on information found in the Third Party Materials and within a finite set of categories. Such assessment may not

correspond to your own assessment and categorisation and you must satisfy yourself that such assessment and categorisation is appropriate and applicable to your level of risk appetite;

(h) you must assess the relative importance that you attribute to changes to information covered by each Update Classification;

(i) Native Aliases will be added to the Licensed Materials in the form in which they appear in the Third Party Materials. We will not undertake any translation or quality control on the accuracy of the Native Aliases as they appear in the Third Party Materials and we are not responsible for any errors in them;

(k) a Sanction Set does not contain all the information that might otherwise be available on a person or entity Profiled in the full version of the Licensed Materials;

(l) The role of the IEI Database is limited to informing you of persons or entities that have been reported in the public domain as having some direct or indirect involvement with activities or industry sectors now being targeted by Iran sanctions. The IEI Database is not, and is not intended to be used as, a list of those in actual or potential breach of sanctions, as World-Check is not in a position to make such a determination. You should not assume that the parties identified in the IEI Database have violated Iran sanctions. Based on your further due diligence and your relationship and interaction with the identified party, you must determine whether the public domain information available in the IEI Database is accurate, current, applicable under your national and relevant international laws, and whether said entity's activity does directly or indirectly violate a relevant Iran sanction.

11.3 In relation to a Country-Check Rank and/or Country-Check Report:

(a) they are provided as a guide to assist you with your own determination of jurisdictional risk. Any risk rankings and bandings generated using the Country-Check predefined or default weight sets represent our own view of risk based on an underlying mathematical model as well as our perception of risk and may not be appropriate for your use. You must satisfy yourself that you understand our default settings and risk criteria and that they are appropriate and applicable for your level of risk appetite.

(b) While every attempt has been made to include risk rankings and risk bandings for all major countries, this cannot be guaranteed.

(c) they are based entirely on information within the public domain and risk rankings and risk bandings within it are derived accordingly. Such information could be inaccurate or outdated and a lack of public domain risk information for any country could lead to an inaccurate risk ranking or risk banding being assigned to it by us.

(d) we cannot guarantee that we will find any or all of the public domain information available in connection with any jurisdiction or territory that may be relevant to assessing the risk posed by it. We also cannot be certain that any public domain information on which we have relied will remain available in the future.

(e) they are based purely on the source data we have selected to make available within Country-Check and such source data can only change when the public domain information on which they are based changes. In addition, Country-Check is not able to reflect the immediate risk impact of sudden events including a financial market crash, an act of terrorism, a natural disaster or war.

12. Confidential Information and Data Privacy

12.1 The recipient of the other party's Confidential Information ("Recipient") shall at all times keep it confidential and not disclose or purge any part of it to any third party except to those of the Recipient's officers or employees who require it to be disclosed to them solely for the purpose of the performance of the Agreement (the Recipient shall be liable for any breach of the Agreement caused by any such officer or employee).

The provisions of the Agreement relating to the Licensed Materials shall continue to apply to any such copies for as long as they are kept by you.
